**Remarks**

Claims 1-27 are pending. Claims 1 is the only independent claim.  
Reconsideration and reexamination of the application is respectfully requested.

In response to the restriction requirement set forth in the Office action of May 25, 2006, applicant herewith provisionally elects the species as defined by the Examiner of the Species IV drawn to a "beam and floor construction with a triangular reinforcing at the end of the beam". Applicant further herewith provisionally elects the species as defined by the Examiner of the Species VI - "Figure 10". The claims readable on the elected species are claims 1-24.

Applicant respectfully traverses the restriction requirement, and requests reconsideration and withdrawal thereof. It is believed that the further species as defined by the Examiner of Figures 11 and 12 would not require an unduly extensive and burdensome search and examination on the merits. Accordingly, applicant respectfully requests that also pending claims 25-27 directed to these further species of Figures 11 and 12 be examined.

Respectfully submitted,

Daniel O'Byrne (Reg. No. 36,625)
